

ARJUN PV

AI & Data Science Engineer · Python Developer · BTech 2024–2028

Palakkad, Kerala, India · +91 9946269473 · Pvarjun527@gmail.com

[LinkedIn](#) · [GitHub](#) · [Portfolio](#)

PROFESSIONAL SUMMARY

Second-year BTech student in Artificial Intelligence & Data Science with hands-on experience in Python, machine learning, generative AI, and cloud technologies. Holder of 12+ verified certifications across AI, data, and cloud platforms. Ranked #57 nationally in the Career Readiness Challenge 2026 and competed among 40,000+ participants in a national AI buildathon. Passionate about building real-world solutions through clean code, automation, and intelligent systems.

EDUCATION

BTech — Artificial Intelligence & Data Science

2024 – 2028 (Current) | Palakkad, Kerala

- Second-year student specialising in AI, machine learning, data science, and software development
- 12+ verified certifications earned alongside coursework in AI, cloud, and data analytics
- Active competitor in national-level AI and career challenges since Year 1

Plus Two — Science Stream

2022 – 2024 | Kerala

- Strong foundation in mathematics and analytical thinking; began independent coding during this period

TECHNICAL SKILLS

Python	Machine Learning	Generative AI	AWS Cloud
Data Analytics	HTML / CSS	C++	Prompt Engineering
APIs & Automation	Data Structures	Debugging	AI App Deployment

PROJECTS

Personal Portfolio Website · HTML · CSS · JavaScript

2026

- Designed and built a fully responsive portfolio from scratch and deployed it independently on Replit
- Demonstrates frontend development, personal branding, and end-to-end deployment skills

Google AI Studio App Deployment · GUVI · HCL · Google for Education

2026

- Built and deployed a functional AI-powered application using Google AI Studio
- Gained practical experience with API integration, prompt design, and app deployment pipelines

AI & ML Project — In Progress · Python · Machine Learning

2026 (Ongoing)

- Active Python/ML project in development — automating a real-world workflow using AI logic
- Practising modular code, iterative debugging, and clean development practices

COMPETITIONS & ACHIEVEMENTS

India AI Impact Buildathon · HCL GUVI · India AI Impact Summit 2026

- Competed among 40,000+ participants nationwide in an AI innovation and product-building challenge
- Applied end-to-end AI thinking — problem framing, solution design, and prototype development

Career Readiness Challenge · upDt Education Technology 2026

- Achieved Rank #57 nationally — completed all challenge phases under competitive conditions
- Demonstrated logical thinking, technical knowledge, and professional readiness

CERTIFICATIONS (12+)

- | | |
|--|--|
| • Python Coder Badge | <i>Kaggle</i> |
| • Google AI Studio App Deployment | <i>GUVI · HCL · Google for Education</i> |
| • Generative AI Certificate | <i>GenAI Technologies</i> |
| • Intro to Generative AI & Agents | <i>Generative AI Technologies</i> |
| • Create Your Own AI Tools | <i>SkillEcted Campus Program</i> |
| • Claude Code: Coding Assistant | <i>Anthropic</i> |
| • AWS Cloud Certification | <i>Amazon Web Services</i> |
| • Microsoft Data Analytics | <i>Microsoft</i> |
| • AI Workshop Completion | <i>Artificial Intelligence Workshop</i> |
| • Mindluster Certification | <i>Mindluster Online Learning Platform</i> |

KEY STRENGTHS

- Self-driven learner — earned 12+ certifications independently alongside full-time academics
- Builder's mindset — consistently ships real projects, not just completes theory
- Strong problem-solver — national competition experience under time and pressure constraints
- Adaptable and feedback-oriented — iterated quickly through competition cycles and project builds
- Team-ready — open communicator with experience collaborating in workshop and challenge settings
